SpinLucki Slot Tracker: Fact Sheet

Launch: Wednesday, October 14, 2026. Issued by Player Analytics Group, LLC, Fernandina Beach, Florida.

What it is

SpinLucki™ Slot Tracker is an entertainment and data analytics platform for slot players and Slot Influencers. It is a record of a player's jackpots, a trophy case for the photos, and a way to plan the next casino trip around what players have reported. Members log their wins. The community's logged wins, anonymized, become the visuals every member explores: where wins were reported, on which machine, at which casino, on which day and hour.

Slot Influencers see the same anonymized data, plus one view nobody else has: the members who chose them.

What it is not

It does not take wagers, does not predict an outcome and is not a strategy. Past jackpots carry no predictive meaning, and the app says so. It does not facilitate gambling. It records wins; it does not record losses, sessions or money spent. SpinLucki Slot Tracker describes; it does not predict.

Three activities for the player

- Take a picture. Build a searchable personal jackpot record. A win is logged photo first; the form reads the date, time and location the photo carries, and the player adds the casino, machine, bet, win, denomination and spins to win. Multi-Win logs up to 15 wins at once on an iPad or desktop.
- Explore the community. Insight Control picks a state, then narrows by destination area, casino, machine, day of the week or time. The visuals: Spin to Win Insights, Community Wins, Win Card Summary, the SpinLucki Win Map (wins by day and hour) and Trending Machines.
- Plan the next trip. SlotVerse Journey builds a Journey Card: Inspiration, Trip Details, Most Reported Days, Most Reported Times and My Picks, with the destination, dates and planned bankroll the player set.

What a member walks away with

The platform's outputs are documents a member keeps, prints or carries into a conversation.

- A Journey Card. The saved trip plan from SlotVerse Journey: Inspiration, Trip Details, the Spin Plan, Most Reported Days and Times, and My Picks, printed or emailed. High Roller Club.
- Make Me an Offer. The Player Report: one Word file with the player's logged jackpots, logged days, estimated ADT and estimated theo, in the language a casino host uses. The figures are estimates from the player's own logged play; the player decides who sees it, and the casino determines any offer. High Roller Club members and Slot Influencers.
- The Casino Partnership Proposal, with a negotiation guide beside it. An editable Word file built from the Slot Influencer's real rows: the members who chose the creator, as players on the floor, by property. Sample data never goes into a proposal. Creator Studio, Enterprise.

On the screen

NAME	WHAT IT IS
Player Studio	The player's home: Submit Wins, Insights, My Games, SlotVerse Journey, Journey Cards, My Account
Player Analytics	The player's own record, measured, with the Player Report
Make Me an Offer	The Player Report: one Word file with the player's logged jackpots, logged days, estimated ADT and estimated theo, in the language a casino host uses. High Roller Club members and Slot Influencers create the real file; the figures are estimates from the player's own logged play, and the casino determines any offer
The Slot Universe	360 casinos, each with its overview and the wins reported there by hour, day and machine
The Slot Library	About 3,200 machine variants, with bet and win amount distributions from logged wins
The Influencers	The roster of Slot Influencers with their 28-day views and current announcements
Creator Studio	The Slot Influencer's home: eight panels and the Casino Partnership Proposal

Plans

Every membership starts with 90 days free. Billing is annual; a card is required at signup and nothing is charged until the 90 days end.

PLAN	ANNUAL PRICE	OPENS
Core Tracker	$81	Submit Wins and Multi-Win, Insights, My Games, My Account, Slot Education
Influencer Connect	$135	Core Tracker plus the Win Map and Trending Machines, Player Analytics, The Influencers, The Slot Library and The Slot Universe
High Roller Club	$261	Influencer Connect plus SlotVerse Journey, Journey Cards and Make Me an Offer
Founding Member		One hundred, ever. Must qualify

For Slot Influencers

Slot Influencers pay nothing. Access is earned, never bought. Creator Studio has three rungs, each earned in the app: Connect (the channel is linked to a player account), Pro (venues set, 25 real jackpots and 25 real subscribers) and Enterprise (100 real subscribers and one announcement shown). In the rungs, subscribers are SpinLucki Slot Tracker members who chose the creator, not the YouTube subscriber count. At Enterprise, the Casino Partnership Proposal is an editable Word file built from the creator's real rows, with a negotiation guide beside it. A creator never sees a member's name, email or individual win history; every number shows its count.

Privacy and sample data

The data set is anonymous. A name and an email exist only to transact business; community wins display as SL numbers, and no player's name or contact details are shown to anyone. At launch, community views include clearly labeled sample data so new members can explore how the platform works. Sample data can be turned off at any time, and a player's own logged wins always show.

The platform

A web application for phone, iPad and desktop; nothing to download. Built on SOC 2 Type II certified infrastructure. Companion resources: slot-machine education at slottracker.ai, and The Spin, a publication covering the Slot Influencer community. Registries: 360 casinos, about 3,200 machine variants, 33 Slot Influencer channels.
